**Dezza Dance: Leg Up** (Choreographer & Performer) Moberly Arts & Cultural Centre | March 2018, February 2019 & February 2020

***Our veins like her branches*** | **February 2020:** *Our veins like her branches* is a love letter for mother nature. In this work, we embody our symbiotic dance with nature while mourning our violent separation from her, from ourselves and one another. In light of our current climate crisis, this subject weighs heavily on our hearts and minds. Through the mediums of dynamic movement, live electric guitar, and real-time digital projections we endeavor to share this story through a journey of ceremony, harmony, destruction, and redemption. We explore how this collective grief lives within our bodies and the undertones of loss, anger, and helplessness. While by the grace of our tenderness, connection, and bravery we uncover the truth of our unity and the love that lives within all things. This is a 30 minute interdisciplinary work choreographed by Rachel Helten in collaboration with Dancers: Sophie Brassard, Chelsea Goddard, Composer: Benjamin Helten and Digital Artist: Ezequiel Peralta.

***We Endure*** | **February 2019:** I created a solo work amidst the Andean landscapes and ruins of Peru and Bolivia. Later I consolidated the work in a studio while training in Buenos Aires.
